

Hello, I am Arindam Sanyal.

AS

UX design leader with **14+ years** building and scaling **fintech and enterprise** products at global scale. Currently **Manager, UX Design at Western Union**, leading UX for regulated, global platforms including the Western Union Canada mobile app.

Core expertise: UX Strategy & Leadership • Design Systems & Design Ops • Accessibility (WCAG) • Complex Workflows • Team Building • Fintech & Regulated Products • Stakeholder Management

I focus on **simplifying complex, compliance-heavy workflows**, building effective design teams, and partnering closely with Product and Engineering to ship **scalable, real-world outcomes**. Open to **senior design leadership** roles — onsite, hybrid, or remote.

Experience

2023 – Now

WESTERN UNION

Global money movement & regulated fintech

Manager, UX Design

Own end-to-end UX for the Western Union Canada mobile app — onboarding, money transfers, error handling, and accessibility-critical flows — while managing and mentoring a team of UX designers.

KEY ACCOMPLISHMENTS

Onboarding simplification: Removed redundant steps and clarified compliance-driven interactions, contributing to a ~5% reduction in early-stage drop-offs.

Accessibility by default: Embedded WCAG compliance early in design without slowing delivery timelines.

Faster delivery: Aligned user needs with regulatory and business constraints, cutting design-to-development handoff time ~20% and late-stage changes ~25%.

Support impact: Improved in-app guidance and error handling, reducing customer support issues ~8%.

Team & process: Standardized wireframing, prototyping, and usability testing for consistent quality across squads.

SEARCE INC

Enterprise HR platform — HappierWork

Principal UX Designer

Owned UX strategy and end-to-end delivery for HappierWork, an enterprise HR management platform — from discovery and research through POCs, demos, and production-ready design.
